Summary:

To secure a position as a Fresh React Developer and contribute to the development of user-friendly and efficient web applications using React. I am eager to utilize my strong foundation in web development and passion for learning to enhance my skills and contribute to the success of the team.

Skills:

- Proficient in HTML, CSS, and JavaScript.
- Familiarity with React and its core principles, including component-based architecture, JSX syntax, and state management (Redux or Context API).
- Basic understanding of version control systems (e.g., Git) and code collaboration tools.
- Strong problem-solving skills and attention to detail.
- Excellent communication and collaboration abilities.
- Self-motivated with a strong desire to learn and grow in a fast-paced development environment.

Projects:

1. Grocery App (HTML, CSS, JavaScript)

- Developed a responsive e-commerce website that showcases products and allows users to browse and add items to their shopping cart.
- Implemented features such as product filtering, search functionality, and a user-friendly checkout process.
- Utilized HTML, CSS, and JavaScript to create an interactive and visually appealing user interface.
